We are founded on the Vision to build technology to enable seamless financial and payment transactions and provide a comprehensive digital platform to Banks and Merchant segments.

---

**Role:** Full Stack Developer (AngularJS, NestJS, MongoDB)

**Experience:** Minimum 1 Year

**Work Location:** Wagle Estate, Thane

## Job Summary:

We are looking for a passionate and skilled Full Stack Developer with at least 1 year of hands-on experience in developing web applications using AngularJS on the frontend, NestJS on the backend, and MongoDB as the database. The ideal candidate should be able to take ownership of features and work independently or as part of a team to deliver high-quality, scalable solutions.

## Job Responsibilities:

- 1) Develop and maintain web applications using AngularJS, NestJS, and MongoDB.
- 2) Design and implement RESTful APIs using NestJS.
- 3) Create dynamic and responsive user interfaces with AngularJS.
- 4) Optimize application performance and ensure high responsiveness.
- 5) Integrate frontend and backend components seamlessly.
- 6) Write clean, maintainable, and well-documented code.
- 7) Collaborate with UI/UX designers, other developers, and product managers.
- 8) Participate in code reviews, testing, and debugging.
- 9) Manage database schema design and optimization using MongoDB.
- 10) Ensure application security and data protection best practices are followed.

---

## Required Skills & Qualifications:

- 1) Minimum 1 year of experience as a Full Stack Developer or similar role.
- 2) Strong proficiency in AngularJS (not Angular 2+).
- 3) Experience in building APIs and backend systems using NestJS (Node.js framework).
- 4) Working knowledge of MongoDB, including schema design and queries.
- 5) Familiarity with RESTful APIs, authentication (JWT/OAuth), and basic security best practices.
- 6) Good understanding of version control using Git.
- 7) Strong problem-solving skills and the ability to work independently.
- 8) Basic understanding of deployment practices and CI/CD pipelines is a plus.
- 9) Bachelor's degree in Computer Science, Engineering, or a related field (preferred, not mandatory).
